   a. Brick.
   b. Natural stone.

The required wall surface treatment may allow a maximum of fifty (50) percent of the metal or fiberglass wall to remain exposed if it is coordinated into the architectural design.

4. The City may grant a deferment to the requirements of Subd. 16.03.B.2 and 16.03.B.3 of this Ordinance when a building or building addition will be constructed in more than one (1) phase. 3. The provisions of Section 4 of this Ordinance are considered and determined to be satisfied.

16.04 YARDS: No lot, yard or other open space shall be reduced in area or dimension so as to make such lot, yard or open space less than the minimum required by this Ordinance. No required open space provided about any building or structure shall be included as part of any open space required for another structure.

If only one (1) adjacent lot is occupied by a structure, the minimum front yard setback shall be the average of the adjacent principal structure and the district minimum setback, but in no case shall a setback greater than the minimum established for the respective zoning district be required.
